Tamarack Talk

The other day I was trying to locate a certain magazine of poetry on the various newsstands in a city of no small size. I couldn't find it. "No call for it?" Two men, chatting as they leaned against a counter, regarded me askance when the magazine in question was mentioned. "What's wrong with him?" was written on their faces, and "How does he get his way—Poetry Magazine?"

It is a discouraging outlook on the surface—the chances for poetry in this age. That is, ostensibly. But it is not so. We are so interested in science and big business and material progress and talkies and radio that there is no time for the so-called aesthetic side of our lives. That is the general impression. But is the impression correct? Are we satisfied, in our rushing, to make only the impression of being so?

These mechanical devices, these man-made contraptions, are saving time in a mechanical, scientific, mechanistic way. They answer the question? Do they, in an eternal law, suffice alone? Can our modern mechanistic, scientific, mechanistic life, carry away from the love of Beauty in Nature and Life? Is it that we should waste all thought of Divinity, all search for the beautiful, all desire for appreciation of man in his nature, for the flouting of what has always and will always be substantially beautiful. A total disregard of standards has even pervaded the realm of poetry, expressing the mood of times, but not affecting the impeccable quality of that which is invulnerable.

At the start we were speaking of generalities. To be specific, those who know the growth of poetry today know that the long hence poetry is coming into its own. People are more and more going to seek poetry for refreshment for their souls. The material is not sufficient. It will be the function of poetry in the future to serve as the mode of expression of appreciation for the beautiful as well as a means of getting away from the tightening grips of a mechanistic world.

That poetry is coming to the fore is more than obvious. Witness the many poetry magazines that are springing up to follow the lead of Harriet Monroe's "Poetry—A Magazine of Verse", which was the first and is the foremost of the poetry magazines today and which has been perhaps the greatest force in the new movement to bring out poets of real worth and genius. We have now such little new leaves as "Poetry Quarterly", "Voices", "Pagan", "Blues", "Miscellany" and a number of others, each striving to discover some new poet who will turn out "his".

There are those that say they can not read poetry, can not understand it or make anything of it. They ought not to be lulled by the poems of today, especially those of the more modernist poet. Such a thing certainly does not write above the head of anyone, and he surely is a poet (Someone had the boldness, after his talk at Waterbury the other night, to pass in the question "Do you consider yourself a poet?" But it did not phase the poet at all.)

Poetry is a potential means for aesthetic expression today, for in an age that demands directness and consciousness, poetry has these qualities. It expresses, too, the other arts and may epitomize them all. The day will come when one won't have to search long for a magazine or book of poetry and we shall all be moved by the art that reshapes itself to our experience. —Tam.

BIRTHDAY GREETINGS

This poem was written by Mrs. Edith Charles, in honor of the eightieth birthday of Mrs. Esther Baker, mother of County Commissioner, Elmer E. Baker.

Years were back in eighteen fifty;
In the little town of Brownfield
Came into the Johnson homestead
February, eighteenth day
Just a dishonorable daughter
And she came prepared to stay.
Happy childhood days she spent there
With her mates in home and school
Learning how to live and practice
By the time tried Golden Rule.
Later on they moved to Chatham
Mid the old New Hampshire hills;
And I was there she met her partner
Fell in love with all the thrills.
When I say he was a Baker
Do not think he made the bread.
Yes in name and not in nature
For he always was called Ed.
To this happy loving couple
Came a son one August day
And we chance to know this fellow
For he is not far away.
He had severely not to running
When a girl came on the scene
And at once they named her Edith
She was so sweet and serene.
For a time these lovely youngsters
Were as years rolled on there came
Young Johnnie and his sister
Mother did not call him Johnny
Everett was his proper name
But to some of friends and schoolmates
He was Johnnie just the same.
While these urchins still were growing
To this town the Baker came
And from that time to the present
Good neighbors they have proved.
Elmer fell in love and married
And just knew that he would do it
For just across the fields and river
He met Florence Charles so fair.
Edith grew up shy and bashful
With a nature so reserved.
It was when she married Ed Meserve.
Now Everett seemed unhappy
For he just knew that he was born
Was the extra day of Leap Year,
This might make a boy forever.
For a birthday come only
Once in every year in four.
Might do well as he grew old
But a boy might like some more.
Spoke of birthdays so infrequent
He soon grew to be a man
And for shy and bashful nature
I say beat it if you can.
Must have something very bracing
In the Massachusetts air.
For while working in that border
He met Florence Charles so fair.
No one knows who popped the question
Or who gave their sweet assent.
But we know that they were married
And a happy life have spent.
Now these children all have added
To their mother's years of life
Much of joy and peace and pleasure,
None of that which we call strife.
Everyone just loves a grandchild,
But for Elmer and his wife
This would be a missing pleasure
In our friend's allotted life.
While this son has been so prosperous
For himself, and for his town
His held trust, and in his country
Holds a place of high renown.
Be it said that in his household
With his children six and wife
He has been a solid stand
Leading there a happy life.
Helen was the first arrival.
Blessed Grandchild, number one.
Now she's grown up, gone and married
Ezra Bosworth's only son.
Then came smiling little Esther
Face was always like a wreath
And she smiles now just as sweetly
As she mothers baby Heath.
Now there Evelyn, little princess
What of her can we best say
As beneath her hills and papers
She just clicks and clicks away.
A surprise when Ervin entered
And their hearts were filled with joy
For 'twixt time their luck was turning
And they welcomed this small boy.
Boy again; they call him Donald
They smart and eyes so bright
But he grew and is a rascal
Whether in or out of sight.
When came Beatrice, ever busy
Different from all the rest.
But while small she was the baby
All join in and call her best.
All these children and grandchildren
Are uniting on this day
With your many friends and neighbors
Just to wish you on your way.
Such a Happy, Happy Birthday
With God's richest blessing for you
Till you are eighty-one.
—The Neighborhood Post,
EDITH F. CHARLES.

ANDOVER

The community was saddened, Friday, by the passing of Edward Clark, after an illness of a year of tuberculosis, at the home of his parents, Mr. and Mrs. Arthur Clark. Mr. Clark was born in Andover twenty-four years ago and was educated in the schools here and in Providence, R. I., when taken ill he held a fine position in Michigan. Coming to Andover nearly a year ago, he has been tenderly cared for by his father and mother. The disease progressed steadily and in early autumn he entered the sanatorium at Hebron for treatment. He was brought home nearly a week ago and failed rapidly until the end came. Besides his parents, he is survived by a sister, Mrs. Grace Clark Bowen of Providence, R. I., and a large circle of friends, who express much sympathy for the bereaved family.

The funeral services were held at the home, Sunday afternoon, conducted by Rev. James Renfrew. There were many friends present. Beautiful flowers covered the casket. Interment was in Woodlawn cemetery.

HOW ONE MAN ENDED "RHEUMATISM"

Stomach Troubles, and Built up His Strength At The Same Time

There is a way to get rid of rheumatism pains along with pains in the stomach, back and sides—and until you try it you can blame only yourself for your suffering.

It's through the use of the remarkable medicine Tanalac that for years has steadily but quietly been performing almost miraculous benefits for millions. Here's just one case out of thousands who have in their joy taken the trouble to write us. His name is Mr. B. F. Burbage, Mr. Burbage, a transfer man, put as he had to earn his living like you and I he had just about despaired when as a last resort he tried Tanalac. "I could hardly move about or raise my arms up. To go up or down stairs it would seem like my knees would break. The pain hurt awful and crippled me up. Besides rheumatism, my digestion was bad and I was rundown generally. It was a mighty big handicap in my business. Finally I began Tanalac and it won the bout for me. It began at once to overcome my muscular rheumatism and now have not an ache or pain and am a well and new man. I recommend Tanalac with unbounded confidence." Other remedies may promise but Tanalac performs—a real medicine that backs claims with a guarantee. Accept no substitute. At all druggists.

ANALYZE THE ALLOWANCE ON YOUR USED CAR

If a dealer pays you more than the true worth of the car he must make up the difference by extra charges on the new car or re-sell it to some one else at too high a price

PERMANENT value is always better than a temporary bargain in the purchase of an automobile. It pays to look ahead and consider reliability and ultimate up-keep costs, as well as comfort, safety, speed, and beauty of line and color.

Since most automobiles are bought for replacement, the value set on your used car is a factor in almost every purchase. Frequently it is given an importance beyond its true worth.

Used cars have a definite market value and you are justly entitled to an allowance based on that value. It is not fair that you receive less. It is not to your best interests to receive more.

IF a dealer pays you more than the true worth of the car he must either re-sell it to some one else at too high a price or make up the difference on the new car. This he cannot do unless he is allowed an excessive profit on the car or on financing, extra equipment and other charges. In either case, you pay the bill, for no way has yet been found to give something for nothing. The money must come from somewhere.

BOLSTERS MILLS

Crooked River Grange Notes
Crooked River Grange entertained in its Hall, Saturday evening, March 1st, Lakeside and Bear Mountain Granges, 4 being Neighbors' Night. The lady officers, Sisters Dresser, Edwards and Ellis, with their assistants, served from 6:30 to 8, a very nice and bountiful supper of baked beans, salads, cakes, pies, doughnuts and the usual fixings. After which the regular meeting opened with Worthy Master Dresser in the chair, with his genial and cordial manner.

It had been expected that the degree staff of Bear Mountain Grange would work the 3rd and 4th degree. So many being sick in the team, they disappointed us at the last moment, the work being postponed until a future meeting, the Worthy Lecturer, Grace Ellis, presented the following program:

Musical Solo.....Arthur Smith
Reading (Bear Mountain Grange).....
Harmonica Solo (Lakeside).....
Singing.....
The Men Give In.....
Bro. Leslie McIntire of Bear Mountain Grange was called upon, who spoke in the usual pleasing and entertaining way, leaving good and helpful thoughts with us on several interesting subjects, and helping us to feel we all are united as brothers and sisters in this big, big Grange family. The program was closed by all singing

"God Be With You Till We Meet Again."

The Worthy Master then called for remarks from Bro. Harold Pike, Bro. Willard Brett, Bro. Ralph Libby, Bro. Walter Chute, Bro. Arthur Sanderson, Sister Edith Martin, Bro. Louis Briggs, Dr. Blake, all who had a helpful and cheerful word. When Bro. Chas. Hamlin of Bear Mountain Grange was called on, he said he made a big effort to be present, as just forty-five years ago this very night he and his brother, W. K. Hamlin, visited Crooked River Grange for the first time. In looking over the hall he could see very few faces that were present at that meeting. Seventeen members represented, Bear Mt., 31 Lakeside, 12 Frederick Robie, 1 East Fryeburg, 1 Denmark, 50 Crooked River.

WATCH for the car with the GOLDEN ROCKET and ask for a demonstration

On the streets of this city today is the Oakland Eight demonstrator, marked on either side by a large GOLDEN ROCKET. The driver is ready to stop and give you a demonstration.

The GOLDEN ROCKET is a symbol of tremendous speed and power. And these are also characteristics of the New Oakland Eight. Its 85-horsepower eight-cylinder engine develops one horsepower to every 37 pounds of car weight. That is why few cars can equal its remarkable speed, pass it on the hills, or match its pick-up in traffic. Watch it for a few minutes, and you will know why it is called "the car with superior performance."

Signal the driver for a demonstration—or come to our showroom. Learn that the New Oakland Eight is not only fast and powerful, but unusually smooth. See its new, smartly styled Fisher bodies. Then you'll know that General Motors' new eight offers a high degree of owner satisfaction at an extremely moderate price!

The New Oakland Eight, \$1045 and up, F. O. B. Pontiac, Michigan, plus delivery charges. Lowley Hydraulic Shock Absorbers included in list price. Bumpers, rear fender guards and spring covers extra. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. Oakland-Ford delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

Until December 19th, 1929, Quaker Hill near Baltimore had never been climbed in high gear by any closed car carrying five passengers, according to all available records. On that day a New Oakland Eight accomplished this dramatic feat, presenting additional proof of its right to be called "the car with superior performance."
